19 394 000
sek

TRANSFERS TO GAVI

Withdrawals

17 893 100
sek

TO GAVI VIA PARTNERSHIPS

Transfers

1 500 000
sek

CONTRIBUTIONS FROM

75%

Companies

25%

Private individuals

BEST DAY

The cut-off date for each month's report may vary and the reporting may not correspond exactly to the website's vaccine counter due to lead times in the transfer transactions. Similarly, the running total amount of funds collected by Vaccine Forward and the running total of funds transferred to Gavi can also differ, since every donation consists of two separate transactions (one in, and one out) which might not be processed in the same calendar month. The information displayed for "contributions from individuals or companies", the "top 5" places, and the "best day of the month" reflect transactions carried out through vaccineforward.org.
